

J D A

The Key to Friendship...

bridges the gap of isolation. The lives of deaf members of both sexes and all ages were empty they were alone. The association has brought them together in comradeship and mutual endeavour and has helped each one to live a full and useful life.

A MESSAGE FROM THE CHAIRMAN OF THE JEWISH DEAF ASSOCIATION

I am very happy to welcome you to our annual fund-raising function, and to thank you once again for your generous support.

This has been a memorable year for the JDA. We were hosts to the first World Conference of Jewish Deaf and entertained deaf people from all over the world. Those who participated must surely be proud of a well-organised and successful conference.

A special Visual Display Unit system "telephone for the deaf" has been purchased for our Centre which enables members to learn to use an instrument which previously played no part in their lives — a new life line — which we are eager to see introduced into every deaf person's home.

We have installed a "loop system" in our hall, thus allowing those able to wear a hearing-aid to pick up with clarity the voice of a speaker or musician.

The recent introduction of sign-language classes for the benefit of community workers are proving very worthwhile.

Extensive repairs and decorations have had to be carried out at our Club in Cazenove Road.

The number of elderly deaf people attending our Day Centre at the Club is increasing and activities are arranged to suit their very special needs. In light of this we are greatly in need of a mini-bus to transport them to and from the Centre.

This is a brief outline of the work we do for those suffering the handicap of deafness.

My thanks to all those who have so generously supported us by giving donations, and taking advertising space in our Brochure and to the Functions Committee for their hard work.

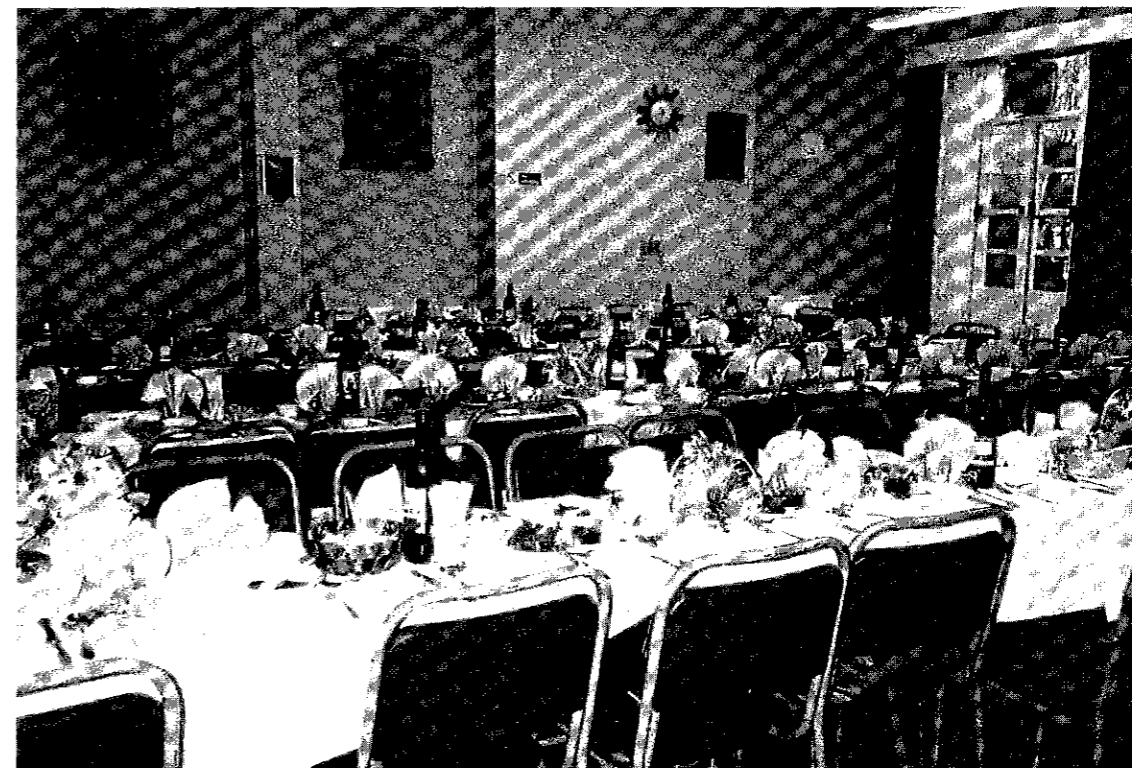

In conclusion I would like to thank Mr. Ian Wallace for giving his services at tonight's function which I hope you will all enjoy.

EVELYN GEE
