WHAT DO YOU THINK OF THE FIRST WORLD ORGANIZATION OF JEWISH DEAF MINI-CONFERENCE IN LONDON, ENGLAND?

Credit to Kenneth Rothschild

This is my first time to attend any kind of Conference. Let alone a Jewish Deaf Conference. I was most surprised to see how many Jewish People like myself.

The Conference gave me a better understanding of how to communicate with what I call the outside world. Also a better into insight todays technicology (Social Religion) and also the many causes of deafness. I feel very happy for having had the opportunity to be able to attend this conference and hope to be able to attend others in the future.

The First London Conference of W.O.J.D. was successful. I am proud of this event because I visited London in March 1983 to organize an international meeting of Jewish Deaf outside of Israel. This London Conference is a beautiful experience. I doff my hat off to the London organizing committee for their hard voluntary work.

I think its wonderful. It was my first time and I learn alot. I'm ready for the 1986 Israel Congress and ready for more information. I enjoy myself very much. I will bring the information to my home to teach other Jews.

Very wonderful! Because I meet all different deaf friends. Hope we will meet again.

It was my first trip abroad and I was totally surprised at the lack of parliamentary procedures by many foreigners at the World Organization of Jewish Deaf Mini-Conference in London.

I only wished they can see how the deaf Americans run their meetings, and they will realize that this will improve the effectiveness of such meetings.

Other than that, it was a rewarding experience in meeting my Jewish deaf brothers and sisters from other countries and getting to know them and their culture.

I am pleased to be at the World Deaf Congress. Really a nice memory.

European Organization of Jewish Deaf Mini-Conference went off very well. I want to congratulate the delegates from foreign countries for doing good work.
